Quad Two

Quad Two is the next landmark building within the Quad development

Quad Two provides four floors of flexible Grade A office space within an emerging quadrangle of commercial and leisure facilities designed to create experiences that enhance individual wellbeing and build enduringly healthy employees.

Quad Two continues the striking visual character that is unique to the developing Quad. The elevations are based on timeless concepts of

scale, light and reveal and create a connection to the natural setting with an earthy colour palette designed to complement the reflections of the trees and landscape and give Quad Two its own distinct identity.

Landscape plays an important role in improving the wellbeing and productivity of staff. Quad Two will provide a transformational public realm and landscaped space in a key campus hub development made up of a gym, café and the 'Quad One' office building. The landscape design strikes a balance between amenity space and habitat by providing infill tree planting within the existing copse; and accessible seating areas beneath new tree planting.
